These lessons are designed to be an additional support for your student. The general education curriculum is the starting point for all students. The following activities are only to help support and maintain the skills that we have been working in our small groups. If you are needing support in ways that your students can access the general education content, please contact me.

About Me

I am a Colorado native, born and raised. I attended college at Front Range Community College and University of Colorado, Colorado Springs, where I earned a degree in Special Education, History, and American Sign Language. This is my 2nd year at Rocky Mountain Elementary School.

Colorado has always been my home. In the Summer of 2019 I married my Husband, who is a guitarist. We love seeing live music and listening to our record player. I also really enjoy plants and gardening in my free time. As most of you know I also love my kitten, Hazel. She is very photogenic and also loves our record player.
